

JUSTIN DOBOV

JUSTIN Doobov's company, Intelligent Finance, has joined First Street Home Loans, as reported earlier this month in *Headliners*, as a nominee for mortgage broker of the year at the Australian Mortgage Awards.

In 2003, Doobov started his own firm, which managed clients' finances through the buying and refinancing process.

"We do everything from finding a cheap home loan, dealing with the lawyers, bidding at auction and doing everything else we can for the client that makes it as hassle-free as possible," Doobov told the *AJN*.

This is the fourth consecutive year that Intelligent Finance has been recognised, after being nominated for superior customer service, as a leading mortgage-brokering firm and Young Gun of the Year in 2005.

Doobov has a degree in finance and accounting, as well as being a qualified engineer.

The award winner will be announced on September 14.
